Additional Financial Information:

Certain events affected the comparability of 2009 versus 2008 quarterly results, as outlined below. For a more detailed comparison of 2009 versus 2008 results, refer to Management's Discussion and Analysis of Financial Condition and Results of Operations included in the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2009.

-- In the first quarter of 2009, the Company recorded a net impairment provision of \$5.4 million, compared to a net impairment provision of \$5.3 million in the same period of the prior year.

-- In the first quarter of 2009, the Company expensed \$13.3 million in upfront court costs, compared to \$6.8 million in the same period of the prior year.

-- Effective January 1, 2009, the Company retrospectively applied FASB Staff Position APB 14-1 "Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)" to account for its outstanding convertible senior notes. As a result, prior years' consolidated financial statements have been retrospectively adjusted. For the quarter ended March 31, 2009, the impact of this change resulted in a decrease in fully diluted earnings per share of \$0.08, comprising of \$0.02 per share attributable to increased interest expense and \$0.06 per share attributable to reduced gain on repurchase of convertible notes. For the quarter ended March 31, 2008, the impact of this change resulted in a decrease in fully diluted earnings per share of \$0.03, attributable to interest expense. See Note 12 in the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2009 for additional information on the application of this accounting principle.

-- In the first quarter of 2009, the Company repurchased \$25.6 million principal amount of its outstanding convertible senior notes, for a total price of \$19.8 million, plus accrued interest. These repurchases resulted in a gain of \$3.1 million. As of March 31, 2009, there was \$45.8 million in principal outstanding of the convertible senior notes.

-- Effective January 1, 2008, the Company increased its collection forecasts from 72 months to 84 months. For the quarter ended March 31, 2008, the impact of this change resulted in an increase in fully diluted earnings per share of \$0.08.

Board Appointments

In response to the favorable conditions in the distressed consumer debt market and Encore's unique opportunity to capitalize on them, the Company's Board of Directors has named George Lund, its current Chairman, to the expanded role of Executive Chairman, effective July 6, 2009. Mr. Lund's enhanced role will include developing the Company's corporate strategy and working with its leadership team to execute on key initiatives. Mr. Lund was formerly Chairman and CEO of BANKFIRST, a national issuer of consumer credit.

The Company is also pleased to announce the nomination of H Ronald Weissman to serve on its Board of Directors, effective July 6, 2009. Mr. Weissman is currently a senior partner with Ernst & Young's Financial Services Office and will retire on July 3, 2009. Mr. Lund observed: "We are excited to have someone on our Board with Ron's exceptional background and his ability to draw upon 40 years of experience at the highest levels of the financial services industry."

J. Brandon Black, President and CEO, commented: "This is an unprecedented time of opportunity for Encore. George's new role and Ron's addition to the Board will better position the Company to fully capitalize on it. While the supply of charged-off credit card debt has reached a historically high level, the number of well-capitalized consumer debt buyers is shrinking and portfolio prices are trending down. Notwithstanding the weak consumer environment, we have been able to increase collections year-over-year due to improvements in our domestic platform, the expansion of our Indian capability and our continuing investment in decision sciences and information technology. These dynamics are very favorable for Encore's business model."

Non-GAAP Financial Measures

The Company has included information concerning Adjusted EBITDA because management utilizes this information, which is materially similar to a financial measure contained in covenants used in the Company's credit agreement, in the evaluation of its operations and believes that this measure is a useful indicator of the Company's ability to generate cash collections in excess of operating expenses through the liquidation of its receivable portfolios. The Company has included information concerning total operating expenses excluding stock-based compensation expense and bankruptcy servicing operating expenses in order to facilitate a comparison of approximate cash costs to cash collections for the debt purchasing business in the periods presented. The Company has included information concerning tangible book value per share because management believes that this metric is a meaningful measure that reflects the equity deployed in the business. These non-GAAP financial measures should not be considered as alternatives to, or more meaningful than, net income and total operating expenses as indicators of Encore Capital Group's operating performance and total stockholders' equity as an indicator of Encore Capital Group's financial condition. Adjusted EBITDA, operating expenses excluding stock-based compensation expense and bankruptcy servicing operating expenses, and tangible book value per share have not been prepared in accordance with generally accepted accounting principles (GAAP). These non-GAAP financial measures, as presented by Encore Capital Group, may not be comparable to similarly titled measures reported by other companies. The Company has included a reconciliation of Adjusted EBITDA to reported earnings under GAAP, a reconciliation of operating expenses excluding stock-based compensation expense and bankruptcy servicing operating expenses to the GAAP measure total operating expenses, and a reconciliation of tangible book value per share to the GAAP measure total stockholders' equity in the attached financial tables.
