**Encore Reports Organization Changes  
And Announces an 67% Increase in Diluted Earnings Per Share**

**Highlights:**

- Collections increase 22%
- Revenue increases 58%
- Net Income increases 90%
- Earnings per fully diluted share increased 67%

**San Diego – (Business Wire) – October 28, 2004** – Encore Capital Group, Inc. (Nasdaq: ECPG), a leading accounts receivable management firm, today reported consolidated financial results for the third quarter ended September 30, 2004.

**For the third quarter of 2004:**

- Gross collections were \$59.9 million, a 22% increase over the \$49.1 million in the same period of the prior year.
- Total revenues were \$46.5 million, a 58% increase compared with \$29.5 million in the same period of the prior year.
- Net income was \$5.9 million compared with \$3.1 million in the same period of the prior year, an 90% increase.
- Earnings per fully diluted share were \$0.25, a 67% increase over the \$0.15 in the same period of the prior year.

“We are very pleased with our third quarter performance, which represents the highest level of net income for any third quarter in the history of the Company,” according to Carl C. Gregory, III, President and CEO of Encore Capital Group, Inc. “We are successfully ramping up our collection efforts on the more profitable non-credit card portfolios, which do not require contingent interest payments. In the third quarter, these portfolios represented 12.4% of our total collections. In the same period from the prior year, non-credit card portfolios represented 4.3% of our total collections. Our success in this area helped drive our largest percentage increase in earnings per share for any quarter this year.”

**Financial Highlights**

Gross collections for the third quarter 2004 were \$59.9 million, an increase of 22.0% over \$49.1 million in the third quarter of 2003.

Total revenue for the third quarter 2004 was \$46.5 million, up 57.5% from the third quarter of 2003. Revenue recognized, as a percentage of collections, was 77.7% in the third quarter of 2004, compared to 60.2% in the third quarter of 2003.

Total operating expenses for the third quarter 2004 were \$28.3 million, compared with \$19.5 million in the third quarter of 2003. The increase in total operating expenses is largely volume driven and reflects growth in the costs of legal collections of \$4.3 million, a \$1.8 million increase in salaries and benefits, investment in the start-up of a new collection channel which amounted to \$1.7 million, as well as growth of \$0.7 million in insurance costs, compliance costs for Sarbanes-Oxley, SEC reporting fees, legal fees and settlements, and accounting fees.

Pretax cash flow from operations for the third quarter of 2004 was \$12.1 million, an increase of 82.1% over the \$6.6 million generated in the same period of 2003. (Adjustments to arrive at pre-tax cash flow from operations consisted of income tax payments of \$951,000 in the third quarter of 2004 and \$269,000 in the third quarter of 2003.) The Company exhausted its Federal net operating loss carry forward in the fourth quarter of 2003 and began to make income tax payments at the statutory rates in 2004.

The Company spent \$21.0 million to purchase approximately \$721 million in face value of portfolios during the third quarter of 2004, a blended purchase price of 2.91% of face value. Credit card portfolios represented 42.2% of total purchases in the third quarter, and non-credit card portfolios represented the remaining 57.8%. Included in the purchases for third quarter of 2004 is the \$13.0 million acquisition of a portfolio representing approximately \$421 million in face value that was closed shortly after the quarter started. Approximately 84.1% of this portfolio consists of non-credit card accounts.

The Company spent \$19.4 million to purchase approximately \$640 million in face value of portfolios during the third quarter of 2003, a blended purchase price of 3.02% of face value.

Mr. Kogan served as Chairman of the Board of Directors of the Company from February 1998 to October 2004. ## Outlook

Commenting on the outlook for the Company, Mr. Gregory said, "In 2005, our earnings should benefit significantly, simply due to the lower interest costs associated with our recently announced new revolving credit facility. Our continued efforts to prudently scale the business should generate incremental benefits as well. Because of our management depth and unique analytical approach, we are a nimble company that can effectively implement a number of different operating strategies in order to succeed in a variety of purchasing environments."

The Company also provided the following information to assist the investment community:

As a result of the new revolving credit facility, the Company anticipates that contingent interest expense will decline beginning in 2005. The Company has forecasted, subject to effects of actual purchases under the line through the end of this year, that its contingent interest expense could be approximately 60-65% of current levels in 2005; 25-30% of current levels in 2006; and will be reduced to minimal amounts beyond 2006.

## GAAP Reconciliation

The table included in the attached supplemental financial information is a reconciliation of generally accepted accounting principles in the United States of America ("GAAP") income before taxes, net income, fully diluted earnings per share and cash flows from operations to income before taxes, net income, fully diluted earnings per share, and cash flows from operations excluding one-time benefits, and the effects of income taxes with respect to cash flows from operations for the periods presented. We believe that these non-GAAP financial measures provide useful information to investors about our results of operations because the elimination of one-time benefits that are included in the GAAP financial measures results in a normalized comparison of certain key financial results between the periods presented.

## Conference Call and Webcast

The Company will hold a conference call today at 2:00 PM Pacific time / 5:00 P.M. Eastern time to discuss the third quarter results. Members of the public are invited to listen to the live conference call via the Internet.

**Supplemental Financial Information**

The following table is a reconciliation of generally accepted accounting principles in the United States of America (“GAAP”) income before taxes, net income, fully diluted earnings per share and cash flows from operations to income before taxes, net income, fully diluted earnings per share and cash flows from operations, excluding one-time benefits, and the effects of income taxes with respect to cash flows from operations for the periods presented. We believe that these non-GAAP financial measures provide useful information to investors about our results of operations because the elimination of one-time benefits that are included in the GAAP financial measures results in an enhanced comparability of certain key financial results between the periods presented (*in thousands, except per share amounts and percentages*):
