#### Encore Capital Group Announces Fourth Quarter and Full-Year 2022 Financial Results

- GAAP net income of \$195 million in 2022
- GAAP EPS of \$7.46 in 2022
- Portfolio purchases up 20% to \$801 million in 2022
- U.S. market for portfolio supply now growing

**SAN DIEGO**, **February 22**, **2023** -- Encore Capital Group, Inc. (NASDAQ: ECPG), an international specialty finance company, today reported consolidated financial results for the fourth guarter and full year ended December 31, 2022.

"2022 marked another year of strong financial and operational performance for Encore as we delivered earnings per share that were second only to our extraordinary result from a year ago," said Ashish Masih, Encore's President and Chief Executive Officer. "The exceptional collections environment of 2021 in the U.S. gave way to more typical consumer behavior as the year progressed, which had the dual effect of reducing collections and increasing the supply of charged off receivables in the market."

"After roughly two and a half years of reduced market supply, increased lending by banks and rising delinquencies have led to the beginning of a transition in the U.S. credit cycle in which opportunities to deploy capital at strong returns are also steadily rising. As a result, our largest business, MCM, increased U.S. portfolio purchasing in 2022 by 36%, which helped increase Encore's global portfolio purchasing by 20% for the year."

"In Europe, we have maintained our purchasing discipline in the face of portfolio pricing that we believe does not yet reflect recent higher funding costs. As a result, and because we are seeing double-digit inflation in parts of Europe, we are taking actions to control the cost base in our Cabot business. Consistent with our capital allocation priorities we will continue to focus our investments in markets with the highest risk adjusted returns."

"In the fourth quarter, a number of accounting items negatively impacted our results including small percentage reductions to our ERC forecast and certain one-time tax items. Despite these impacts, we delivered strong results for the full year."

"Looking ahead, our priorities in 2023 remain consistent with the fundamental objectives that have driven our financial performance and created shareholder value over the past several years. We remain anchored by our three pillar strategy and focused on our balance sheet objectives and capital allocation priorities. Against a backdrop of growing market supply in the U.S., we expect MCM's portfolio purchases in Q1 2023 to be at least \$200 million dollars at attractive returns, more than double Q1 2022 purchases. The purchasing pipeline for 2023 appears equally robust. Encore is well positioned to capitalize on these opportunities that are emerging as portfolio supply rises," continued Masih.

Available capacity under Encore's global senior facility was \$478 million at the end of 2022. In addition, Encore ended the year with \$126 million of non-client cash on the balance sheet.

#### **Non-GAAP Financial Measures**

This news release includes certain financial measures that exclude the impact of certain items and therefore have not been calculated in accordance with U.S. generally accepted accounting principles ("GAAP"). The Company has included information concerning adjusted EBITDA because management utilizes this information in the evaluation of its operations and believes that this measure is a useful indicator of the Company's ability to generate cash collections in excess of operating expenses through the liquidation of its receivable portfolios. Adjusted EBITDA has not been prepared in accordance with GAAP and should not be considered an alternative to, or more meaningful than, net income as an indicator of the Company's operating performance. Further, this non-GAAP financial measure, as presented by the Company, may not be comparable to similarly titled measures reported by other companies. The Company has attached to this news release a reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measures.
